

INTRODUCING THE DIGITAIL + CDMV INTEGRATION

Keep your team focused on pets, not inventory

The new Digitail + CDMV integration lets Canadian clinics tie their PIMS directly to their main distributor—automating inventory updates, purchase orders, and cost tracking. No more double entry, stock surprises, or manual price updates.

What It Is

Digitail's all-in-one, AI-native veterinary PIMS now connects directly with CDMV, Canada's leading distributor for animal health professionals.

Clinics can now:

- Import and link products from CDMV into Digitail's Product Directory
- Automate stock and cost updates in real time
- Place purchase orders directly from Digitail's Shopping List

This means your product data, costs, and on-hand quantities are always accurate—without extra work.

Benefits & Impact

Eliminate double entry

Place orders in just a few clicks, directly from Digitail without switching systems.

No more outdated data

Live CDMV sync keeps quantities, costs, and availability accurate automatically.

Prevent stock-out surprises

Automated reorder points and AI forecasting keep critical supplies in stock.

Greater inventory visibility

See exactly what's on your shelves, what's moving, and where cash is tied up.

Avoid system-juggling

From treatment plan to invoice to fulfillment, everything flows in one platform.

Ensure timely, consistent care

Reliable product availability builds client trust and supports better client outcomes.

How It Works

1. Connect Your CDMV Account

In Digitail's Integration settings, enter your CDMV account number and postal code, then confirm the Information Sharing Agreement.

2. Import or Link Products

- Import: Bulk add new products from CDMV's catalog
- Link: Match existing products in Digitail to CDMV entries for automatic updates

3. Keep Data in Sync

Quantities, costs, and availability refresh automatically so invoices match reality.

4. Order Directly from Digitail

Generate purchase orders from your Shopping List in Digitail and send them straight to CDMV. Costs are pre-filled with CDMV's current pricing.
